

## Contaminated Land Consultants

Due to sustained growth and an expansion in operations of our business in NSW and WA, we are seeking applications from suitably qualified and experienced persons for the position of Environmental Scientist or Engineer.

As an experienced consultant to the contaminated land industry, the successful candidate will be experienced in managing projects from inception to completion.

At OTEK we believe that people are our number one asset and as such we place a strong emphasis on OH&S, staff training, long term career and technical development. OTEK is an equal opportunity employer and if you fit the essential key criteria, qualifications and experience, we encourage you to apply for this position.

### Essential Key Criteria:

- Hands-on environmental consulting experience;
- Experience in environmental soil and groundwater sampling (ideally with petroleum clients);
- Experience in the use and calibration of environmental monitoring and sampling equipment;
- Experience with the interpretation and use of laboratory results;
- Experience in ground water monitoring well installation; and
- Proven technical report writing (examples may be required);

### Qualifications:

- Bachelor degree or higher in Science or Engineering;
- Current senior first aid certificate; and
- Current full drivers licence.

### Experience:

- No less than 4 years of relevant experience.

### Desirable attributes:

- Excellent communication skills - verbal & written;
- Knowledge and understanding of state and national legislation, and
- Australian Standards pertaining to the environment.

To commence ASAP, these positions will become permanent at the successful completion of a three month probationary period. An attractive salary will be offered in line with qualifications and experience.

To be considered for this position apply to [employment@otek.com.au](mailto:employment@otek.com.au) and submit your current CV including the names and contact details of at least 2 professional referees and a Letter of Application addressing the following:

1. Essential Key Criteria;
2. Qualifications;
3. Experience; and
4. Desirable attributes.
